

Animal's disappearing

**We are cutting down the rainforests every single day,
And if we do not stop, the Earth is going to pay,
But some people have not listened to our cry,
So bang, the Orang-utan will have gone in a blink of an eye.**

**We are catching fish every single day,
And if we do not stop the Ocean is going to pay,
But some people still cast their nets,
So bang, the Dolphin will be the latest catch.**

**You can stop this,
You can stop this now,
If you don't,
The Earth, the Ocean will pay,
Animals are disappearing,
Even you can see this now,
So think do I want all the animals resting in the sky?**
