

# ~ ~ Climate Change ~ ~

Climate change is very bad,  
It makes a lot of people sad,  
I do it, you do to,  
That's right I'm watching you.

Climate change is everywhere,  
It sends smog up into the air,  
But don't worry cause I'm gonna say,  
How you can turn green today.

Turn off your radio and TV,  
Turn off your Playstation and your Wii,  
Help the world so we can see,  
How helpful we can be.

If you don't stop now the world will  
be gone,  
Be careful it's the only one.
