## KEYWORDS

Communication, schools, homes, communities, business, website.

## NAME OF AUTHORITY

Warwickshire County Council, Warwickshire Climate Change Partnership

## SERVICE AREA

Communications

## BUILDING CAPACITY/TAKING ACTION

Building capacity

## SUMMARY

The Warwickshire Climate Change Partnership website is a hub of local and national information on adaptation.

## DRIVERS

- NI188

## DESCRIPTION

## METHODS

- Warwickshire Climate Change Partnership website contains a section on adaptation with accessible information on the local strategy and actions, including case studies and links to further information.
- It contains straight forward information on adaptation for schools, businesses and householders.
- Also allows partners to access 'impact sheets' describing risks and adaptation options for various public service areas including Care Homes, Biodiversity, Building Control, Early Years and Childcare, Fire & Rescue, Fire Protection, Highways Maintenance, Parks and Public Open Spaces, Registration Services, Smallholdings and Tourism.

## KEY PLAYERS

- Warwickshire County Council's Climate Change Team

## ANALYSIS

### STRENGTHS

- Provides a focal point for the local partners adaptation learning.
- Useful resource for other local authorities to use.

## FURTHER INFORMATION
