

DESIGN AND ACCESS STATEMENT

**ABBOTS FARM JUNIOR SCHOOL, RUGBY
ERECTION OF 2.4M HIGH SECURITY FENCING**

The scheme proposes the erection of a 2.4 metre high security fencing to a section of the Eastern boundary of the school.

The scheme is being proposed to improve the general security of the property. There has been a total of £4500,00 worth of damage to the site cause by vandalism this year alone.

Securifor 2D fencing system is proposed as it is durable, vandal resistant and offers high level of security whilst minimising visual impact. The fencing is to be powder coated green to blend with the surroundings.

Vehicular and pedestrian accesses to the site will remain unchanged.
