

OBJECTIVES	Target	Progress with Targets (based on progress with actions reported between 2005-7)	Target Progress	Progress Summary	Plan Progress
A. To restore the breeding range to its 1988-91 level	2010	<p>Some progress (behind schedule)</p> <p>Progress is steady but slow and target is unlikely to be achieved.</p> <p>Range contraction has largely been halted but recolonisation is slow and patchy.</p>	↑	<p>Targets unlikely to be achieved on schedule.</p> <p>Nevertheless, steady progress is being made and numbers are increasing. Climate change may be inhibiting recovery as a steady increase is often followed by a sharp fall back.</p>	↓
B. To restore the breeding population to its estimated 1990 level	2010	<p>Some progress (behind schedule)</p> <p>Target is unlikely to be achieved.</p> <p>Population recovery is slow and sporadic, despite the best efforts of FWAG and the RSPB. Successes in one area are often offset by losses elsewhere.</p>	↑
