

OBJECTIVES	Target	Progress with Targets (based on progress with actions reported between 2005-7)	Target Progress	Progress Summary	Plan Progress
A. To maintain a complete directory of black poplars in the sub-region and to safeguard them	Review annually	Target achieved. Now have over 500 individuals as a result of new records from Coventry.	↑	The status of the species is well understood and there is no sign of serious decline. We are discovering new specimens all the time. There is occasional loss and planting is limited.	↑
B. To identify gaps along river valleys and encourage new plantings there	2010	Some progress on schedule. The mapping of WWT data onto GIS will show the gaps (a project led by Louise Sutherland).	↑		
C. To raise local awareness of the rarity, location and appropriate management of black poplars in the sub-region	Ongoing	Target achieved. Much achieved, partly through the Big Tree Hunt.	↑		
D. To raise awareness of the black poplar, its life cycle and habitat requirements	Ongoing	Target achieved. Much achieved, partly through the Big Tree Hunt.	↑
