

OBJECTIVES	Target	Progress with Targets (based on progress with actions reported between 2005-7)	Target Progress	Progress Summary	Plan Progress	HBA status *
A. Survey, designate and record important sites and structures after defining criteria for this	2008	Some progress (on schedule) Most of the related actions are underway, on schedule. There are appropriate policies in relevant planning documents, although we are a little behind in surveying and designating important sites.	◀—▶	We have made a good start on having appropriate policies within planning documents and securing appropriate mitigation at such sites. However, no work has begun on improving the quality for priority species or in raising public awareness.	◀—▶	No data
B. Protect sites containing legally protected species and the best examples of the habitat	2006	Some progress (on schedule) Most actions underway, on schedule. Relevant policies within planning documents. Some success with protecting sites that have legally protected species within perhaps 50% of Warwickshire, Coventry and Solihull.	↑			
C. Identify and implement a procedure to improve the quality of the built environment for priority species	2008	Some progress (behind schedule) Most of the relevant actions behind or not started. No targeted research on priority species and not started any procedures to improve the quality.	↓			
D. Raise public and business awareness of the importance of the ongoing built environment for biodiversity	Review 2006	Some progress (behind schedule) Limited success through raising awareness via the planning process. No specific awareness leaflets / presentations /events.	↓
