

Make your own Anglo Saxon Bead Jewellery

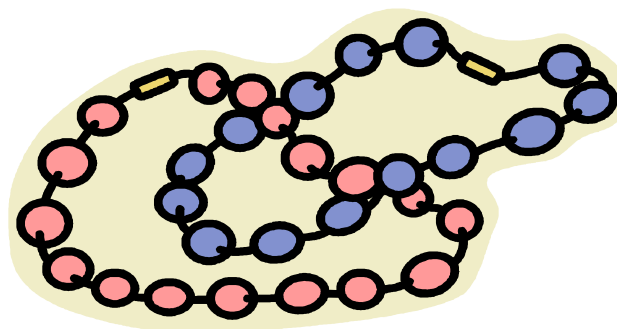

You will need:

Colourful magazines

A Pencil

Length of elastic or string

Sellotape

- 1) Choose a few colourful pages from a magazine and rip them out.
- 2) Cut the pages into long tapering triangles like the one below. To make different sized beads cut different lengths of triangles.
- 3) Roll the triangles from the wide end to the pointy end around a pencil, this makes a bead shape. To hold the bead in place use some sellotape.
- 4) Make as many beads as you need for your jewellery and thread them onto a length of elastic.
- 5) Tie the ends of the elastic together and take home your Anglo Saxon jewellery.
