

Warwickshire Climate Change Partnership Review 2008

Building the Basis for the Future

Cover Letter

Dear Partner or Potential Partner,

I am undertaking the first review of Warwickshire's Climate Change Partnership since its formation in June 2005 and official launch of the Strategy in July 2006. I would like to find out how you think the Warwickshire Climate Change Partnership is performing, what is going well and what is not going so well. I would welcome your honest views on what approach is needed for the future to ensure we all work together as effectively as possible to deliver successful, well-supported projects, lasting carbon savings and appropriate adaptation measures.

To refresh your memory of what the original intentions were, I have put together a background paper on the history of what's happened so far in the process of developing and implementing Warwickshire's Climate Change Strategy and Action Plan.

There are two brief questionnaires. One is to gauge the overall performance on meeting the climate change objectives contained within the Strategy and whether Warwickshire is on track to meet its target. The other is to find out what the most valuable aspects of being a Partner are, how satisfied you are with being part of the Partnership and how to guide its improvement.

I would really appreciate it if you could fill them in and send them back to me, either by post or email by **Friday 20th June 2008**.

I look forward to hearing from you.

Best wishes,

Jacky Lawrence
