

**Direct Payment Employers:  
Funding available to train your personal assistants**

Coventry and Warwickshire Partnership for Care (CWPC) support people who work in social care to:

- Access funding for training; and
- Understand how the Personalisation Agenda is shaping the services that they offer.

This year we would like to offer funding to people employing their own staff through direct payments to help train their **Personal Assistants (PAs)**.

**Workforce Development Funding (WDF)** can be claimed through CWPC towards the costs of units of the **Qualifications Credit Framework (QCF)** such as:

- Dementia
- End Of life
- Learning Disabilities
- Safeguarding
- Management

**A full list of the units you can claim funding for is available on request.**

Units are broken down into 'credits' (bite size pieces of the full qualification) so PAs can take as little or as much of the qualifications as required.

If you are interested in claiming this funding to help train your PAs then please contact:
