**Open or Closed questions?**

Split the room in half and ask the children to move to either the Open or Closed side after the question has been read out.

It's great weather, isn't it?

What do you think of the weather at the moment?

Where do you live?

What time is it?

What did you do on your holidays?

How do you keep focused on your work?

What do you like doing in your spare time?

How are you?

Are you ok?

Do you like Football?

What sports do you like and why?

Are you going out tonight?

What are you doing tonight?

What food did you like?

Feel free to add your own questions into the game!
