Wootton Wawen is really fun  
Always warm from the sun  
There is always people being helpful  
The school kids always joyful  
Wootton Wawen has tolerance  
Elderly people need some balance

By Alfie Wilson

It is nice and quiet and  
there's never no riots  
It is a small town with no mall  
But I'm very happy playing ball  
Wootton Wawen is so playful even  
When we have lots of rainfall  
Wootton Wawen has a star  
It shines from afar  
Wootton Wawen is so near to my home

By Callum

Wootton is fun  
It is like the sun  
It is very joyful  
It is very playful  
Plus it is very helpful  
Wootton is calm  
But only when you are at a farm  
Here it is quiet  
I pick the flowers which are the colour violet  
I love Wootton although it is small  
But I do love playing ball  
I love Wootton Wawen

By Abbie Reynolds-Dobson

Wootton Wawen is very fun  
Especially in the sun  
Wootton Wawen is very small  
And that is why we have a ball.

By Oliver

Lighthorne Heath is alright, oh it's quite bright  
It's amazing, no it's not invading  
Sometimes it can be very very bad  
And people can feel very very sad

Oh oh but don't you worry  
Because we will be there for you  
No matter what you wanna do  
We'll be there yeah oh yeah  
Yeah we'll be there!

It can be fun, because you can run  
All over the place yeah yeah  
There's thugs, who take drugs,  
In the night, it's a fright  
Because they fight  
They can be quite mean sometimes  
But we can stand up yeah yeah

Oh oh but don't you worry  
Because we will be there for you  
No matter what you wanna do  
We'll be there yeah oh yeah  
Yeah we'll be there!

But we can all be friends  
We can stay together till the end  
No matter what happens  
We'll be there

Oh oh but don't you worry  
Because we will be there for you  
No matter what you wanna do  
We'll be there yeah oh yeah  
Yeah we'll be there!

So don't be shy, just tell me why  
Why you can't feel the pain that were main  
Lighthorne Heath can be alright so  
Stay together in the night  
Keep close together alright don't be scared  
Hold on tight, because we can manage

By Amie Louise Mazurek

If I was to die and travel afar  
I'd write your name on every star  
To let the universe see  
How much you really mean to me

By Sam Pearson (Lighthorne Heath)

Why take drugs?  
It's like eating bugs  
You have a family to love  
How would they feel if you were above  
You don't want to be livin your life  
When all your mum can see  
Is their child smoking weed  
So don't be a clown  
And leave your family with a frown  
They want to see you grow up with a life  
So that you can get yourself a wife  
So just leave the drugs  
Then you won't be a mug or a thug

By Lucy Wing (Lighthorne Heath)

In the area I see dripping blood  
In the night it gives me a fright  
What can I do please see me through  
I want to help shall I ring the cops  
What will it do, will it help, will it stop

Stop you gonna die get off  
The streets please don't cry  
I like you I really like you  
I really do

There's thugs that take drugs  
Please stop your gonna drop  
It's gonna make your head go round  
Then you're on the ground  
Please stop go to the top

Stop you gonna die get off  
The streets please don't cry  
I like you I really like you  
I really do

By Jordana (Lighthorne Heath)

There's a place called Bidford and that's where I live

There's a bit of graffiti

And there's a cooking club

Where you can siv

Lots of people swear

That I hate to do

There are lots of wine glass at the park

And that's why all of us go 'cuckoo'

By Joseph Nolan

Sometimes I feel left out  
Again I think about how people get hurt  
By getting robbed in the streets these days  
I always think of young people these days  
Going round doing drugs  
These days I think that will go by  
One day and every time you walk those roads and  
see how clean they will be  
All be gone away  
It will all be gone away

By Rebecca Browne (Bidford)
