How does the system work

- Firstly, applicants have to sign up to get a user name and secure id to manage their CarShare account
- Before applicants are accepted onto the system, they have to respond to an e-mail that is sent to their inbox to confirm their application – this is to ensure that genuine employees only are on the system
- During the application process, applicants select their employer from a drop down list and then select their regular place of work – a company can have as many places of work as necessary, as long as they are within Warwickshire or a reasonable distance from the County Borders
- Applicants then state their preferences for travel times and companions as illustrated by the following two slides.

My working hours

Select the days you wish to share by "ticking" the appropriate small boxes (click on a box to add or remove a tick).

Indicate your preferred times (in both hours and minutes) of arrival at and departure from work on each day which you have selected (scroll up and down through each "hours" and "mins" menu (24 hour clock) and click on the required value to select it).

The first weekday you tick will be initially set to 08:30 - 17:00 (5pm), but you can alter this. Any subsequent weekdays you tick will be initially set to your chosen times for earlier days that week.
