FINAL DECISION **YES/NO** (*If 'No' complete Suggested Next Steps*)

SUGGESTED NEXT STEPS :

Details to be specified

- Further consideration by this Committee
- To Council
- To Cabinet June 2002
- To an O & S Committee
- To an Area Committee
- Further Consultation Intended works to be published widely.

Stratford-on-Avon Area Committee – 29th May 2002

Highway Maintenance Plan 2002/03

Report of the Director of Planning, Transport and Economic Strategy

Recommendation

That Cabinet are informed of the Committee's comments on the Highway Maintenance Plan for the financial year 2002/03.

1. Introduction

- 1.1 The National Code of Practice for Maintenance Management published in July 2001 suggests that authorities should produce an annual maintenance plan for Highway Maintenance. Although, in the past, Warwickshire have not produced such a plan there are significant advantages in ensuring that Members and the public are fully aware of the works to be undertaken during the year to maintain the highway network. It is therefore proposed to produce an annual plan for Highway Maintenance. The Plan for 2002/03, including a list of maintenance schemes for Stratford-upon-Avon, is attached as **Appendix A**.

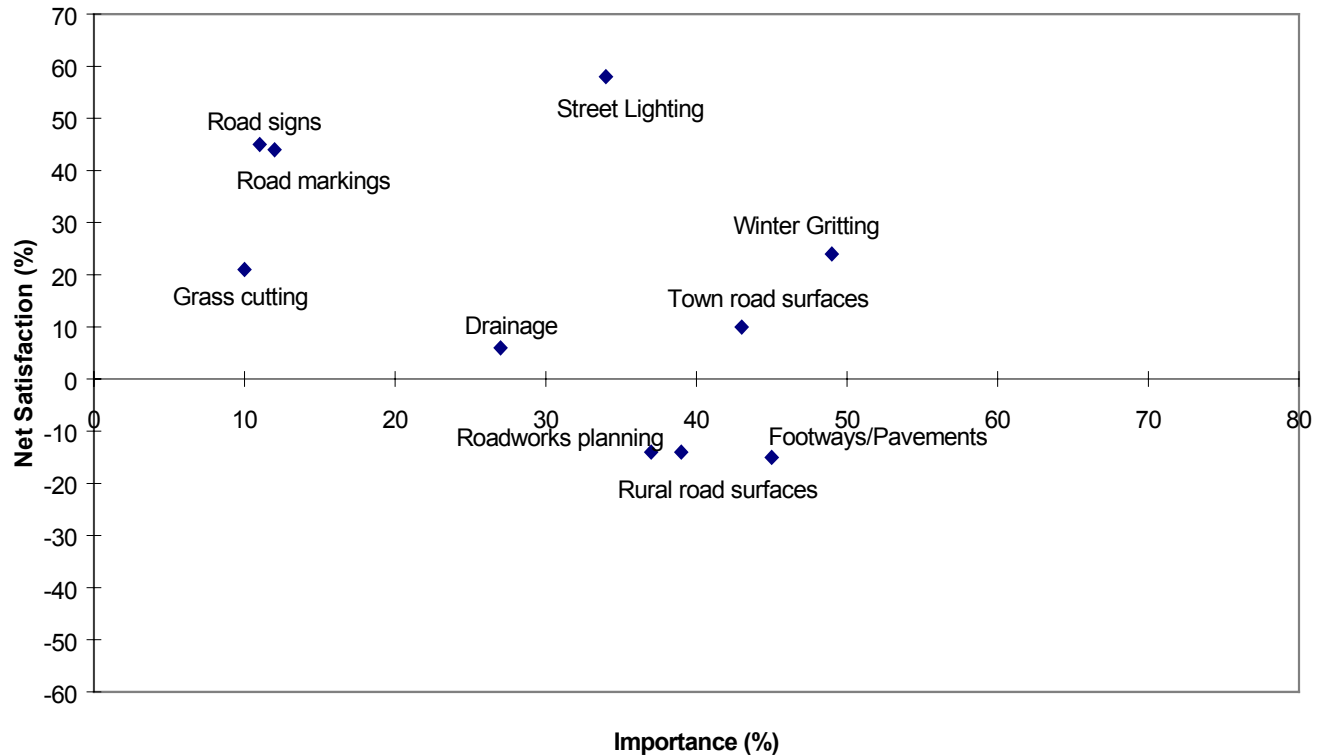

2. Public Satisfaction with Highway Maintenance

- 2.1 In 1999 a questionnaire was sent to members of the Warwickshire Citizen's Panel. The questions concerned the importance and satisfaction of a range of highway maintenance services. The new Panel has recently repeated the questionnaire. The results of both Panels are shown in the tables below. The results show that the public are still concerned about the condition of carriageways and footway surfaces, roadworks coordination and drainage. The latest results show a slight decline in satisfaction for some services.
- 2.2 Funding for 2001/02 and 2002/2003 has increased but it is believed that it will probably take a number of years before an appreciable effect on the condition of the network is noticed.

1999/2000 Survey

Highway Maintenance : Warwickshire Households

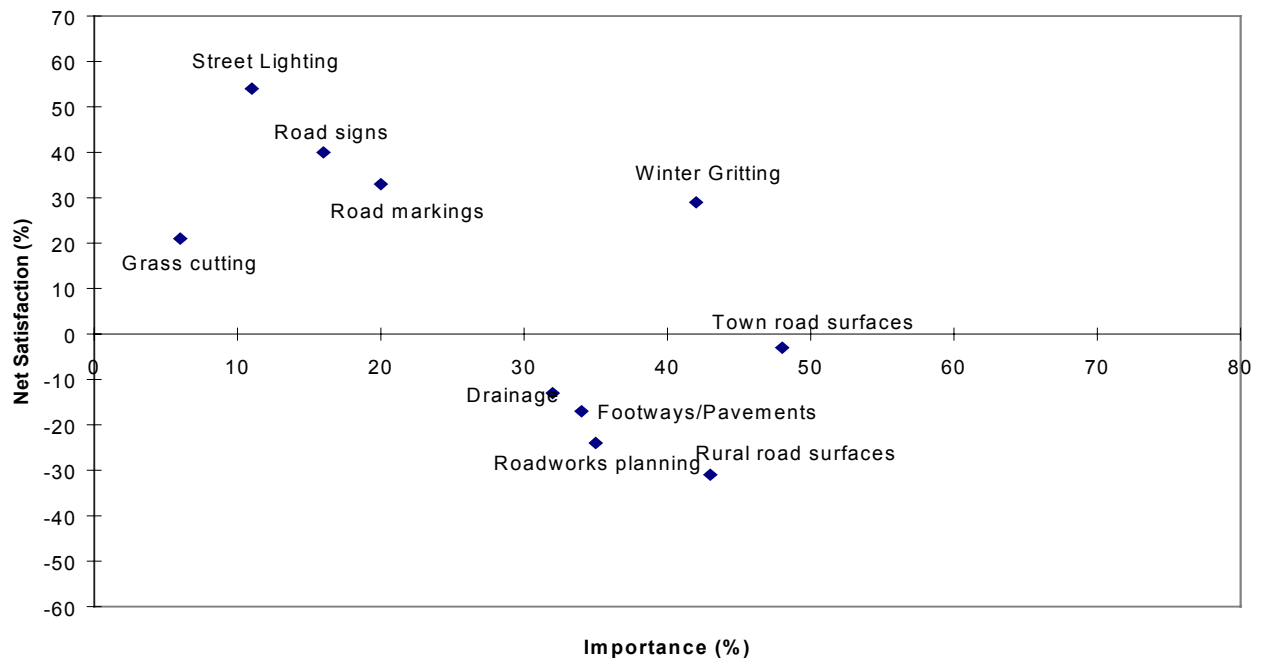

Net Satisfaction v Importance

2002 Citizens Panel Survey

Highway Maintenance : Warwickshire Households

Net Satisfaction v Importance

3. Best Value Inspection

- 3.1 The Audit Commission have recently undertaken an inspection of the Highway Maintenance service, including the Winter Maintenance and routine and structural maintenance activities. The initial inspection report is due to be available on 31st May.
- 3.2 One concern of the inspectors during their visit was that there were no published long-term targets for the maintenance service. In response to this it is proposed that targets are set for the following:-
- (i) Condition of the road network – To reduce the backlog of repairs by 2010 by undertaking structural maintenance on an average of at least 50km of B, C or D roads each year.
 - (ii) Public satisfaction – to set levels of public satisfaction to be achieved.
 - (iii) Safety – to reduce wet road skidding accidents in line with the Government casualty reduction targets.

4. Conclusion

- 4.1 The Committee is invited to give their views to the Cabinet.

Stratford on Avon Area Committee – 29th May 2002

Highways Maintenance Plan 2002/2003

Funding

Funding for all works, including Street Lighting and Winter Maintenance across the whole County for 2002/2003 is shown below. For comparison the figures from the last three years are included.

In future years all funding will be broken down into Area Committee allocations.

	1999/2000	2000/2001	2001/2002	2002/2003
Non-Principal Revenue	£8,211,939	£8,030,924	£7,614,924	*£8,358,722
Non-Principal Capital	NIL	NIL	£2,897,000	£2,971,000
Principal Capital	£814,000	£810,000	£1,438,000	£1,461,000
Winter Maintenance	£948,750	£1,060,800	£1,163,000	£1,192,075
Street Lighting inc Energy	£1,823,950	£1,737,629	£1,885,076	£1,798,203
TOTAL	£11,798,639	£11,639,353	£14,998,000	£15,781,000

*Includes an additional £300,000 for drainage, grass cutting and sign cleaning.
Inflation figures for each year are included.

Schedule of Structural Works

The list of schemes in the attached table are those that are proposed to be carried out during the period 1st April 2002 to 31st March 2003 in the Stratford on Avon Area. The individual structural schemes have been selected using a maintenance priority assessment system in line with current highway maintenance policy.

The schedule may be subject to change as a result of, amongst other things:-

- (i) More detailed scheme costs being determined.
- (ii) Consultation.
- (iii) Utility work clashing with proposed roadworks.
- (iv) Outfalls not being found for drainage schemes.

These works would then be postponed or replaced by others.

Comments on any particular scheme can be made by telephoning Robert Vale on **01926 - 414088** or e-mail countyhighways@warwickshire.gov.uk. More details, including estimated timings, can also be determined.

Non Structural Works

These works, such as grass cutting, gully emptying, patching, gritting etc., will be carried out in accordance with the Maintenance Policy as approved by the Council on 19th December 2000.

For the year 2002/03 additional funding has been provided to carry out the following works across the whole County:-

- (i) £100,000 for an additional grass cut.
- (ii) £150,000 for drainage works.
- (iii) £50,000 for traffic sign cleaning.

Other Matters

To bring maintenance work into line with the new National Code of Practice the following will be undertaken this year:-

- (i) A wide scale consultation exercise will be carried out with key stakeholders.
- (ii) A maintenance hierarchy of footways and carriageways will be produced.
- (iii) An inventory of trees and lighting units will be taken.
- (iv) A more robust method of carrying out safety inspections will be initiated.

Explanation of Treatments

C Micro	Covering the carriageway with a veneer of cold laid surfacing material (Microasphalt)
F Slurry	Covering the footways with a veneer of cold laid surfacing material (Footway Slurry Seal)
S D	Covering the carriageway with stone chips embedded in bitumen (surface Dressing)
C R Tread	Rotovating the carriageway to a shallow depth, applying additional bitumen and compacting (Retread)
CR Surfacing	Covering the carriageway with a minimum thickness of 40mm of dense hot laid surfacing material (Resurfacing)
Drainage	Providing an improved or new drainage system to remove water from the carriageway or relieve flooding
C Hau	Excavating the edge of carriageway to about 500mm depth and replacing the materials with a new road structure (Haunch Reconstruction)
